"If you lift your eyes, you can see no boundaries." (Chinese proverb)

Cultural education covers a wide variety of practice which is not limited to arts education but including the use of art-based forms of teaching in all kinds of school subjects. Creativity and the capacity for reflection are the key elements of Cultural Education which is increasingly recognized as an essential component in the education of children and young people.

The potential of cultural education lies in its ability to nurture and develop in students the skills and behaviours which navigating in a complex world requires: the ability to question, make connections, communicate, problem solve, collaborate and innovate. Cultural Education contributes to the emotional and social development of children and young people and to their integration into the community and is therefore the basic condition of social participation.

A society that strengthens the role of cultural education creates important foundations for its own future because above all, creative learning empowers children and young people to imagine how the world could be different and gives them the confidence and motivation to make positive change happen. Cultural Education can make a direct contribution to resolving the social and cultural challenges we are facing in Europe today

The objective of this Professional Development is to impart the power of creativity and to encourage a more dynamic approach to teaching and learning. It promotes links between disciplines, curiosity, and enthusiasm for cooperation. Attention will also be given to approaches that take a look at Cultural Education in terms of its opportunities for inclusion.

Target group:

Secondary teachers (pupils aged 10-19), who wish

- to widen their teaching practice
- to help students to reach their creative potential
- to start eTwinning projects related to cultural education

Workshops cover arts, music, language/writing, performance, digital media. Participants should have basic knowledge of eTwinning tools.

Conference language: English

Participant countries: All eTwinning countries

Organization:

National Support Service eTwinning (NSS)
Pedagogical Exchange Service
Graurheindorfer Str. 157, D - 53117 Bonn
